

West Lafayette, IN
June 8-9, 2017

You're invited

RamanFest, the International Conference on Advanced Applied Raman Spectroscopy will be back in the United States in 2017!

Organized by

HORIBA
Scientific

in collaboration with

PURDUE
UNIVERSITY

RamanFest will be held in collaboration with Purdue University in West Lafayette, Indiana on Thursday, June 8th through Friday, June 9th, 2017.

You are invited to attend RamanFest and join Professor Ji-Xin Cheng, who is the co-chair, for two days of highly relevant oral presentations from world renowned Raman experts addressing cutting-edge Raman techniques,

including life science applications, imaging, single molecule spectroscopy and TERS (Tip Enhanced Raman Spectroscopy).

Registered guests are invited to submit their abstracts to present their research results in the form of a poster, during the two days of conferences.

Check our website for updates and registration information:

HORIBA

Scientific

See-eth us at
SciX
in Minneapolis
booth #26

A Full Fleet of Raman Capabilities is pulling into SCIX

HORIBA Scientific's Vikings will be sailing our dragon ship full of spectroscopy products into Minneapolis/St. Paul for the SciX show.

Stop by our booth and let our Viking warriors and warrior maidens show you the latest tools of our trade.

Our NanoRaman®/TERS solution provides new levels of ease and automation to nanoscale chemical imaging, with AFM Raman results that are publishable in 'out-of-the-lab' demonstrations at conferences worldwide!

And find out how our Raman Academy can take you from just being good at Raman to EXCELLING at it! Learn how to advance your Raman knowledge and skills, and maximize the value of your Raman instrument. Get full access to the content on RamanAcademy.com, including: •Tutorials • Webinars • Training
• Step-by-step instructions on how-to-Raman • Educational videos • FAQs

So if Raman is on your horizon, HORIBA should be too!
